# ABOUT US

UNIVERSAL HOBBIES is one of the leading brands in the world of farm and construction collectible replicas. For more than 20 years we aim at improving the quality level of our models while offering a large choice in the different scales.

Our collectibles are produced by using die casting method combined with injection molding for plastic and rubber parts. To ensure the finest details, we prefer tampo-printing as opposed to sticker details. This gives our product permanent printings that will not fade or peel in time. The tampo-printing process can take up to 400 presses to complete a single model!

Last but not least, each collectible comes in a specific and official packaging designed in partnership with the manufacturer. We believe all these little details make our products stand out from those of our competitors. Our die-cast models are suitable for **ages 14 and over**.

HAND ASSEMBLED

THERE IS A CHILD INSIDE EACH ONE OF US!

UHKids is glad to introduce at the end of this catalog its growing range of stuffed toys inspired by some of the most successful farm and construction equipment models. All our toys are in-house designed, approved by manufacturers and fully licensed in Europe and North America. These toys feature high quality materials and embroideries. They will make a perfect gift for your little one's **aged 3 and over**.
